TOOLS TO ADAPT TEXT

Tips and tricks for creating leveled texts to make reading comprehensible for English Learners.

ADJUST THE LANGUAGE

Using a website to simplify text is a great first step in creating adapted text for ELs. Once a program simplifies the text, check to make sure the main idea, vocabulary, and syntax is appropriate for students.

MAKE IT VISUAL

Support students' understanding of a text with visuals. Turn text into an infographic or a nonprint test.

USE TEXT SETS

Many websites have ready-to-use leveled text sets on many topics. Use these text sets as is or tweak them to accommodate your students' needs.

ORGANIZE YOUR LEVELED TEXTS

Google Docs and Google Slides are great places to store leveled texts. Symbaloo or Thinglink are good options to use if you want to present leveled texts to students in an organized manner.
